

兔抗 ABCB8 多克隆抗体

中文名称：兔抗 ABCB8 多克隆抗体

英文名称： Anti-ABCB8 rabbit polyclonal antibody

别名： MABC1, M-ABC1, EST328128

储存： 冷冻（-20℃）

抗原： ABCB8

宿主： Rabbit

相关类别： 一抗

反应种属： Human, Mouse, Rat

标记物： Unconjugate

克隆类型： rabbit polyclonal

技术规格

Background:

The membrane-associated protein encoded by this gene is a member of the superfamily of ATP-binding cassette (ABC) transporters. ABC proteins transport various molecules across extra- and intra-cellular membranes. ABC genes are divided into seven distinct subfamilies (ABC1, MDR/TAP, MRP, ALD, OABP, GCN20, White). This protein is a member of the MDR/TAP subfamily. Members of the MDR/TAP subfamily are involved in multidrug resistance as well as anti gen presentation. The function of this half-transporter has not yet been determined; however, it may involve the compartmentalization and transport of heme, as well as peptides, from the mitochondria to the nucleus and cytosol. This protein may also play a role in the transport of phospho

	holipids into mitochondrial membranes.
Applications:	ELISA, WB
Name of antibody:	ABCB8
Immunogen:	Fusion protein of human ABCB8
Full name:	ATP-binding cassette sub-family B member 8
Synonyms :	MABC1, M-ABC1, EST328128
SwissProt:	Q9NUT2
ELISA Recommended dilution:	2000-5000
WB Predicted band size:	80 kDa
WB Positive control:	Mouse heart tissue
WB Recommended dilution:	500-2000
