

兔抗 CENPM 多克隆抗体

中文名称：兔抗 CENPM 多克隆抗体

英文名称：Anti-CENPM rabbit polyclonal antibody

别 名：PANE1; CENP-M; C22orf18; bK250D10.2

相关类别：一抗

储 存：冷冻（-20℃）

宿 主：Rabbit

抗 原：CENPM

反应种属：Human

标记物：Unconjugate

克隆类型：rabbit polyclonal

技术规格

Background:	The centromere is a specialized chromatin domain, present throughout the cell cycle, that acts as a platform on which the transient assembly of the kinetochore occurs during mitosis. All active centromeres are characterized by the presence of long arrays of nucleosomes in which CENPA (MIM 117139) replaces histone H3 (see MIM 601128). CENPM is an additional factor required for centromere assembly (Foltz et al., 2006 [PubMed 16622419]).
Applications:	ELISA, IHC
Name of antibody:	CENPM
Immunogen:	Full length fusion protein
Full name:	centromere protein M

Synonyms :	PANE1; CENP-M; C22orf18; bK250D10.2
SwissProt:	Q9NSP4
ELISA Recommended dilution:	1000-2000
IHC positive control:	Human esophagus cancer and Human breast cancer
IHC Recommend dilution:	10-50
