

兔抗 GDF15 多克隆抗体

- 中文名称: 兔抗 GDF15 多克隆抗体
- 英文名称: Anti-GDF15 rabbit polyclonal antibody
- 别名: PDF, MIC1, PLAB, MIC-1, NAG-1, PTGFB, GDF-15
- 抗原: GDF15
- 储存: 冷冻 (-20℃)
- 宿 主: Rabbit
- 相关类别: 一抗
- 反应种属: Human
- 标记物: Unconjugate
- 克隆类型: rabbit polyclonal

技术规格

Background:	This gene encodes a secreted ligand of the TGF-beta (t ransforming growth factor-beta) superfamily of proteins. Ligands of this family bind various TGF-beta receptors I eading to recruitment and activation of SMAD family tr anscription factors that regulate gene expression. The e ncoded preproprotein is proteolytically processed to ge nerate each subunit of the disulfide-linked homodimer. The protein is expressed in a broad range of cell types, acts as a pleiotropic cytokine and is involved in the str ess response program of cells after cellular injury. Incre ased protein levels are associated with disease states su ch as tissue hypoxia, inflammation, acute injury and oxi dative stress.
Applications:	ELISA, IHC

Name of antibody:	GDF15
Immunogen:	Fusion protein of human GDF15
Full name:	growth differentiation factor 15
Synonyms:	PDF; MIC1; PLAB; MIC-1; NAG-1; PTGFB; GDF-15
SwissProt:	Q99988
ELISA Recommended dilution:	5000-10000
IHC positive control:	Human liver cancer
IHC Recommend dilution:	150-300
