

兔抗 WNT10A 多克隆抗体

中文名称：兔抗 WNT10A 多克隆抗体

英文名称：Anti-WNT10A rabbit polyclonal antibody

别名：OODD; SSPS; STHAG4

相关类别：一抗

储存：冷冻（-20℃）

宿主：Rabbit

抗原：WNT10A

反应种属：Human, Mouse

标记物：Unconjugate

克隆类型：rabbit polyclonal

技术规格

Background:

The WNT gene family consists of structurally related genes which encode secreted signaling proteins. These proteins have been implicated in oncogenesis and in several developmental processes, including regulation of cell fate and patterning during embryogenesis. This gene is a member of the WNT gene family. It is strongly expressed in the cell lines of promyelocytic leukemia and Burkitt's lymphoma. In addition, it and another family member, the WNT6 gene, are strongly coexpressed in colorectal cancer cell lines. The gene overexpression may play key roles in carcinogenesis through activation of the WNT-beta-catenin-TCF signaling pathway. This gene and the WNT6 gene are clustered in the chromosom

|------------------------------------|--|
| | e 2q35 region. |
| Applications: | ELISA, IHC |
| Name of antibody: | WNT10A |
| Immunogen: | Synthetic peptide of humanWNT10A |
| Full name: | wingless-type MMTV integration site family, member 10A |
| Synonyms : | OODD; SSPS; STHAG4 |
| SwissProt: | Q9GZT5 |
| ELISA Recommended dilution: | 1000-2000 |
| IHC positive control: | Human liver cancer |
| IHC Recommend dilution: | 10-50 |
