

兔抗 HCK 多克隆抗体

中文名称: 兔抗 HCK 多克隆抗体

英文名称: Anti-HCK rabbit polyclonal antibody

别 名: JTK9; p59Hck; p61Hck

抗原: HCK

储 存: 冷冻(-20℃)

宿 主: Rabbit

相关类别: 一抗

反应种属: Human, Mouse, Rat

标记物: Unconjugate

克隆类型: rabbit polyclonal

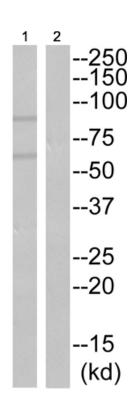

技术规格

Background:	The protein encoded by this gene is a member of the Src family of tyrosine kinases. This protein is primarily hemopoi etic, particularly in cells of the myeloid and B-lymphoid lin eages. It may help couple the Fc receptor to the activation of the respiratory burst. In addition, it may play a role in n eutrophil migration and in the degranulation of neutrophils . Multiple isoforms with different subcellular distributions ar e produced due to both alternative splicing and the use of alternative translation initiation codons, including a non-AU G (CUG) codon.
Applications:	ELISA, WB
Name of antibody:	HCK
Immunogen:	Fusion protein of human HCK

全国订货电话 4008-723-722

Full name:	hemopoietic cell kinase
Synonyms:	JTK9; p59Hck; p61Hck
SwissProt:	P08631
ELISA Recommended dilutio n:	1000-2000
WB Predicted band size:	60 kDa
WB Positive control:	Hela cells
WB Recommended dilution:	200-1000
