

# 兔抗 ITGAV 多克隆抗体

中文名称： 兔抗 ITGAV 多克隆抗体

英文名称： Anti-ITGAV rabbit polyclonal antibody

别 名： integrin subunit alpha V; CD51; MSK8; VNRA; VTNR

抗 原： ITGAV

相关类别： 一抗

储 存： 冷冻 (-20°C)

宿 主： Rabbit

反应种属： Human, Mouse

标 记 物： Unconjugate

克隆类型： rabbit polyclonal

## 技术规格

### Background:

The product of this gene belongs to the integrin alpha chain family. Integrins are heterodimeric integral membrane proteins composed of an alpha subunit and a beta subunit that function in cell surface adhesion and signaling. The encoded preproprotein is proteolytically processed to generate light and heavy chains that comprise the alpha V subunit. This subunit associates with beta 1, beta 3, beta 5, beta 6 and beta 8 subunits. The heterodimer consisting of alpha V and beta 3 subunits is also known as the vitronectin receptor. This integrin may regulate angiogenesis and cancer progression. Alternative splicing results in multiple transcript variants. Note that the integrin alpha 5 and integrin alpha V

	subunits are encoded by distinct genes.
<b>Applications:</b>	ELISA, IHC
<b>Name of antibody:</b>	ITGAV
<b>Immunogen:</b>	Synthetic peptide of human ITGAV
<b>Full name:</b>	integrin subunit alpha V
<b>Synonyms:</b>	CD51; MSK8; VNRA; VTNR
<b>SwissProt:</b>	P06756
<b>ELISA Recommended dilution:</b>	5000-10000
<b>IHC positive control:</b>	Human tonsil
<b>IHC Recommend dilution:</b>	50-100
