HRP 标记的小鼠抗兔 IgG,轻链特异性

中文名称: HRP 标记的小鼠抗兔 lgG,轻链特异性

英文名称: HRP-conjugated IgG Fraction monocolnal Mouse Anti-Rabbit IgG, Light chain specific

- 相关类别: HRP标记二抗
- 储 存: 冷冻 (-20℃)
- 标 记 物: HRP

技术规格

Background	Based on immunoelectrophoresis and/or ELISA, the antibody reacts with whole molecule rabbit IgG. It also reacts with the light chains of other ra bbit immunoglobulins. No antibody was detected against non- immunogl obulin serum proteins. The antibody has been tested by ELISA and/or sol id-phase adsorbed to ensure minimal cross-reaction with bovine, chicken, goat, guinea pig, Armenian hamster, horse, human, mouse, rat, and shee p serum proteins, but it may cross-react with immunoglobulins from oth er species.
Applications	1/ 2000-50000 for ELISA 1/ 200-2000 for Immunohisto/cytochemistry 1/ 5000-100000 for Western blotting with ECL substrates
