## ANXA4 抗原(重组蛋白)

- 中文名称: ANXA4 抗原(重组蛋白)
- 英文名称: ANXA4 Antigen (Recombinant Protein)
- 相关类别: 抗原
- 储 存: 冷冻(-20℃)

## 概述

Fusion protein corresponding to a region derived from 179-314 amino acids of human ANXA4

## 技术规格

Full name:	annexin A4
Synonyms:	ANX4; PIG28; ZAP36
Swissprot:	P09525
Gene Accession:	BC000182
Purity:	>85%, as determined by Coomassie blue stained SDS-PAGE
Expression system:	Escherichia coli
Tags:	His tag C-Terminus, GST tag N-Terminus
Background:	Annexin IV (ANX4) belongs to the annexin family of calcium-depen dent phospholipid binding proteins. Although their functions are st ill not clearly defined, several members of the annexin family have been implicated in membrane-related events along exocytotic and endocytotic pathways. ANX4 has 45 to 59% identity with other me mbers of its family and shares a similar size and exon-intron orga nization. Isolated from human placenta, ANX4 encodes a protein t hat has possible interactions with ATP, and has in vitro anticoagula nt activity and also inhibits phospholipase A2 activity. ANX4 is alm ost exclusively expressed in epithelial cells.
