

## CEBPE 抗原(重组蛋白)

- 中文名称: CEBPE 抗原(重组蛋白)
- 英文名称: CEBPE Antigen (Recombinant Protein)
- 储存: 冷冻(-20℃)
- 相关类别: 抗原

概述

Full length fusion protein

技术规格

Full name:	CCAAT/enhancer binding protein (C/EBP), epsilon
Synonyms:	CRP1; C/EBP-epsilon
Swissprot:	Q15744
Gene Accession:	BC035797
Purity:	>85%, as determined by Coomassie blue stained SDS-PAGE
Expression system:	Escherichia coli
Tags:	His tag C-Terminus, GST tag N-Terminus
Background:	The protein encoded by this gene is a bZIP transcription factor whic h can bind as a homodimer to certain DNA regulatory regions. It ca n also form heterodimers with the related protein CEBP-delta. The e ncoded protein may be essential for terminal differentiation and func tional maturation of committed granulocyte progenitor cells. Mutatio ns in this gene have been associated with Specific Granule Deficienc y, a rare congenital disorder. Multiple variants of this gene have bee n described, but the full-length nature of only one has been determi ned.
