

兔抗 DGKA 多克隆抗体

中文名称：兔抗 DGKA 多克隆抗体

英文名称：Anti-DGKA rabbit polyclonal antibody

别 名：DAGK; DAGK1; DGK-alpha

相关类别：一抗

储 存：冷冻（-20℃）避光

抗 原：DGKA

宿 主：Rabbit

反应种属：Human

标记物：Unconjugate

克隆类型：Unconjugate

技术规格

Background:	The protein encoded by this gene belongs to the eukaryotic diacylglycerol kinase family. It acts as a modulator that competes with protein kinase C for the second messenger diacylglycerol in intracellular signaling pathways. It also plays an important role in the resynthesis of phosphatidylinositols and phosphorylating diacylglycerol to phosphatidic acid. Alternative splicing occurs at this locus and four transcript variants encoding the same protein have been identified.
Applications:	WB
Name of antibody:	DGKA
Immunogen:	Synthesized peptide derived from internal of human DGKA.
Full name:	diacylglycerol kinase, alpha 80kDa

Synonyms :	DAGK; DAGK1; DGK-alpha
SwissProt:	P23743
WB Predicted band size:	83 kDa
WB Positive control:	Jurkat cells lysate
WB Recommended dilution:	500-3000
