

ADRM1 抗原(重组蛋白)

- 中文名称: ADRM1 抗原 (重组蛋白)
- 英文名称: ADRM1 Antigen (Recombinant Protein)
- 别名: adhesion regulating molecule 1; ARM1; ARM-1; GP110
- 储存: 冷冻(-20℃)
- 相关类别: 抗原

概述:

Fusion protein corresponding to a region derived from 208-407 amino acids of human ADRM1

技术规格:

Full name:	adhesion regulating molecule 1
Synonyms:	ARM1; ARM-1; GP110
Swissprot:	Q16186
Gene Accession:	BC017245
Purity:	>85%, as determined by Coomassie blue stained SDS-PAGE
Expression system:	Escherichia coli
Tags:	His tag C-Terminus, GST tag N-Terminus
Background:	This gene encodes a member of the adhesion regulating molecule 1 protein family. The encoded protein is a component of the prote asome where it acts as a ubiquitin receptor and recruits the deubiq uitinating enzyme, ubiquitin carboxyl-terminal hydrolase L5. Increase d levels of the encoded protein are associated with increased cell a dhesion, which is likely an indirect effect of this intracellular protein. Dysregulation of this gene has been implicated in carcinogenesis. Al ternative splicing results in multiple transcript variants.
