

兔抗 DGKD 多克隆抗体

- 中文名称: 兔抗 DGKD 多克隆抗体
- 英文名称: Anti-DGKD rabbit polyclonal antibody
- 别名: EPD; PDE; ATQ1
- 相关类别: 一抗
- 抗 原: DGKD
- 储 存: 冷冻(-20℃)
- 宿 主: Rabbit
- 反应种属: Human
- 标记物: Unconjugate
- 克隆类型: rabbit polyclonal

技术规格

Background:	This gene encodes a cytoplasmic enzyme that phosp horylates diacylglycerol to produce phosphatidic acid. Diacylglycerol and phosphatidic acid are two lipids t hat act as second messengers in signaling cascades. Their cellular concentrations are regulated by the enc oded protein, and so it is thought to play an import ant role in cellular signal transduction. Alternative spl icing results in two transcript variants encoding differ ent isoforms.
Applications:	ELISA, IHC
Name of antibody:	DGKD
Immunogen:	Synthetic peptide corresponding to a region derived from 456-470 amino acids of human DGKD
Full name:	diacylglycerol kinase delta

Synonyms:	dgkd-2; DGKdelta
SwissProt:	Q16760
ELISA Recommended dilution:	5000-10000
IHC Positive control:	Human prostate cancer;Human esophagus cancer
IHC Recommended dilution:	20-100
