

兔抗 CLEC2B 多克隆抗体

中文名称：兔抗 CLEC2B 多克隆抗体

英文名称： Anti-CLEC2B rabbit polyclonal antibody

别名： AICL, IFNRG1, CLECSF2, HP10085

抗原： CLEC2B

储存： 冷冻（-20℃）

宿主： Rabbit

反应种属： Human

相关类别： 一抗

标记物： Unconjugate

克隆类型： rabbit polyclonal

技术规格

Background:	This gene encodes a member of the C-type lectin/C-type lectin-like domain (CTL/CTLD) superfamily. Members of this family share a common protein fold and have diverse functions, such as cell adhesion, cell-cell signalling, glycoprotein turnover, and roles in inflammation and immune response. The encoded type 2 transmembrane protein may function as a cell activation antigen. An alternative splice variant has been described but its full-length sequence has not been determined. This gene is closely linked to other CTL/CTLD superfamily members on chromosome 12p13 in the natural killer gene complex region.
Applications:	ELISA, IHC

Name of antibody:	CLEC2B
Immunogen:	Fusion protein of human CLEC2B
Full name:	C-type lectin domain family 2, member B
Synonyms :	AICL, IFNRG1, CLECSF2, HP10085
SwissProt:	Q92478
ELISA Recommended dilution:	1000-5000
IHC positive control:	Human esophagus cancer
IHC Recommend dilution:	25-100
