

## 兔抗 TBX18 多克隆抗体

- 中文名称: 兔抗 TBX18 多克隆抗体
- 英文名称: Anti-TBX18 rabbit ployclonal antibody
- 相关类别: 一抗
- 储存: 冷冻(-20℃)
- 宿 主: Rabbit
- 抗 原: TBX18
- 反应种属: Human, Mouse
- 标记物: Unconjugate
- 克隆类型: rabbit polyclonal

## 技术规格

Background:	This genes codes for a member of an evolutionarily con served family of transcription factors that plays a crucial role in embryonic development. The family is characteriz ed by the presence of the DNA-binding T-box domain and is divided into five sub-families based on sequence conservation in this domain. The encoded protein belon gs to the vertebrate specific Tbx1 sub-family. The protei n acts as a transcriptional repressor by antagonizing tra nscriptional activators in the T-box family. The protein f orms homo- or heterodimers with other transcription fa ctors of the T-box family or other transcription factors.
Applications:	ELISA, IHC
Name of antibody:	TBX18

Immunogen:	Fusion protein of human TBX18
Full name:	T-box 18
SwissProt:	O95935
ELISA Recommended dilution:	1000-2000
IHC positive control:	Human liver cancer
IHC Recommend dilution:	10-50
